Spring 2024

A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

Extended Day

Our Extended Day program allows busy working families the flexibility to drop-off before the school day starts and pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

Program Details:

- Hours: 7:00 am – 6:00 pm
- Nutritious snacks to help children form healthy eating habits
- Dedicated and trained staff members with experience in working with children.
- Facilities

Vendors

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Vendor
- Dedicated and specially trained staff members in specialty area.
- Facilities
- Special Program

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Vendors

H.O.T. Chess

(Highly Original Thinkers)

In H.O.T Chess, each child's uniqueness is celebrated, honored, and respected. Students are allowed to explore, express and discover the enjoyment of chess. They are exposed to a variety of openings, positions, strategies and competition opportunities that encourage out-of-the-box thinking skills, literacy, listening, problem solving, social skills, and self-esteem. Chess sets and boards are provided.

Meaningful Mindfulness

Mindfulness practices are fun for children and teach them to manage their emotions, thoughts, and actions through a playful approach. We will play games, learn friendly breathing exercises and practice animal themed yoga poses. These types of exercises are not taught in a textbook but are critical for overall well-being and mental health.

Classes start: January 11th

Kindergarten – 2nd Grade Thursday 2:50 – 3:30

3rd Grade – 6th Grade Thursday 3:30 – 4:15

Contact: Kara@alignmind.org
